

French or Spanish Immersion Teacher - K-6 after-school

Suntree Language Academy, LLC
Boise, ID, USA

Part-Time

\$14 to \$18 per hour

Why Work Here?

We're a new program looking to shake up the way our community views second-language acquisition. Help shape that vision!

As a French-immersion or Spanish-immersion teacher, you will work in Suntree's after-school program with either our K-2nd or 3rd-6th grade groups. Each group of students will have one lead and one assistant teacher.

Teachers will immerse students in the target language (French) in order to help them learn a second language or to improve their French or Spanish skills if they already have them (many will, having graduated from our sister preschool program Le Soleil or a Spanish-immersion preschool).

Teachers will assist in play-based lesson planning and in supporting their students' journey as they learn a new language.

The perfect teacher is energetic, patient, and able to create warm and meaningful relationships with their students in a way that encourages the students to have the confidence to try their new skills.

Our teachers will also have the opportunity to teach all-ages French or Spanish classes in the evenings and lead language-immersion summer camps for our K-6th or 7th-12th grade summer programs.

A firm grasp of the target language is required and education experience is preferred.

We value a diversity of backgrounds and experiences, so don't be afraid to apply if you are excited about the idea of helping spread the love of learning a second language!

Suntree Language Academy is slated to open September 12th and is searching for teachers with language skills in Spanish, French, ASL, English as a second language, Mandarin, Arabic, Basque, and more!
